

## 2010 Retirement Plan Census Report Instructions

**It is of the utmost importance that the employee census data you provide to us is complete and accurate and that the salary information reported covers the plan year - it will impact your test results and contributions!**

We request that you provide the following information to us in a timely manner:

**“Annual Compensation”** - total gross compensation as reported on the employee’s W-2 form.

**“Excluded Compensation”** - excluded compensation may be defined in your plan document to include any or all of the following: bonuses, commissions, and overtime wages paid to an employee. Please refer to your plan document to determine if your plan uses excluded compensation.

The following information should be entered onto an Excel spreadsheet (a sample of which is available for you under ‘Client Services – 2010 Client Data’ on our website at [www.americanpension.net](http://www.americanpension.net)), saved as an attachment, and then emailed to us at [CensusData@americanpension.net](mailto:CensusData@americanpension.net) along with the completed *Annual Questionnaire*.

***Please remember to include all employees who worked for your company during the year whether or not they may have been eligible to join the plan!***
